
MARKETING DATA ANALYST INTERNSHIP: A JOURNEY OF LEARNING, ANALYZING, AND EVOLVING

GIANELLA ROBLES

AGENDA

Background

My Collaborations

Final takeaways

BACKGROUND

- ▶ Location: Born and Raise in Port Chester (Family originally from Peru)
- ▶ Degree: Computer Science (Concentration in Web Development)
 - SUNY New Paltz – Graduated May 2024
- ▶ Post Grad:
 - Focused on Front-End Development and interviewing for Entry-Level Software Engineering positions
 - I reached a point where I realized that my work was more about fulfilling my degree requirements than pursuing what genuinely interested me
- ▶ My Interest in Anteriad:
 - I could use a different perspective of my degree (Mathematics/Analyst)
 - Learning excel, SQL, and other platforms to display my work
 - Speaking to Larissa and Maria

I GOT THE INTERNSHIP!

Key Takeaways from My Experience

PACING REPORT - WF

Task :

- In Platform (Internal)
 - Google & Bing Ads
 - Breakdown into Campaign Types
 - Brand, NB, PLA, Performance Max

Insight :

- Able to navigate the platforms
- Being mindful when inputting data entries and creating notes for myself

Impact:

- Ensures budget is on track by Campaign Type
- Allocate budget based on Campaign Performance

Budgeting Period						
	Start Date	3/1/2025				
	End Date	3/31/2025				
	Budget Days	21				
	Actual Days	10				
	Remaining Days	11				
Day Type	Business

Task :

- In Platform
 - Google & Bing Ads
 - Google Analytics
 - Depends on Clients Schedule
 - Weekly, Bi-weekly, MTD,YTD

Insight :

- Understanding why these period comparisons are important for the clients to view
 - Able to compare metrics such as CTR: Clicks/Impressions across time

Impact:

- Focusing on key metrics that reach the clients goals
 - Helps identify high and low performing campaign types
 - Optimize campaigns – which to push or pause
 - Supported data-driven decisions

Google Ads

Task :

- Accessed the Client's Server to get AI gathered data from the database table
- Verified a random sample of URLs from the table to check additional keywords AI could use to get more return locations

Insight :

- Noticing that URLs with “no location” return were not functional websites – GoDaddy Website / Domain for sale
- Improving existing results by refining data to a specific sample size of confidence levels
 - 50 – high, 50 – medium, 50 – low

Impact:

- Helped the team understand why some locations pages had no data return
- Provided insights for improving future data collection and scraping accuracy
- Found new keywords – “office” and “find-us”

DATA ANALYTICS

POWER BI

Task :

- Enhance existing PBI charts and create new visualizations
- Review visualizations used by other clients to discover new ideas and designs

Insight :

- Interpreting the different periods by visual comparisons
- Learning how clear and easy-to-read charts help clients comprehend their data better

Impact:

- Supports the team in delivering more tailored dashboards and improve client satisfaction
 - Demonstrated useful charts by focusing on what matters most to the client

BONUS PROJECTS

SQL: SKU MATCHING & DATA CONFIRMATION

Task :

- Used SQL to import client SKU List from excel and matched it to GBDB data
- Identified the two new product groups: Family Engagement (FE) and Behavioral Health (BH)

Insight :

- Importance of working in a safe copy of the GBDB and analyzing my findings before creating permanent changes
- Seeing how being clear with my work and organizing my thoughts makes it easy for others to navigate (comments)
- Verifying the SKU match was **ProductH2**, not the **SKU # field**

Impact:

- Gave the client clear numbers to support the FE and BH tracking
- Prepared clean and accurate data so the team can move forward with updating the main GBDB and have statistics to compare to

```

6
7
8 --create a column
9 ALTER TABLE [SSMw_GBDB].[dbo].[FE_and_BH]
10 ADD [Sku Check] VARCHAR(500);
11
12 SELECT *
13 FROM [SSMw_GBDB].[dbo].[FE_and_BH]
14
15 UPDATE t1
16 SET t1.[Sku Check] = ISNULL(t2.Count, 0) -- Set the count or 0 if the SKU doesn't exist
17 FROM [SSMw_GBDB].[dbo].[FE_and_BH] t1
18 JOIN (
19 -- Subquery to get the count of each SKU from SSMw_GBDB table
20 SELECT [Sku#], COUNT(*) AS Count
21 FROM [SSMw_GBDB].[dbo].[GBDB_GR]

```

Chapter Name	SKU	Family Engagement	Behavior Health	Sku Check	ProductH2 Check
1. Team 10 Talk-About-AP-Post-Bullying Ball	17514	x	1	387	
2. Team 10 Talk-About-AP-Anger Management Ball	17514	x		NULL	877
3. Team 10 Talk-About-AP-Positive Attitude Ball	17516		x	116	1620
4. Team 10 Talk-About-AP-Addiction Ball	17514	x		NULL	2296
5. Team 10 Talk-About-AP-Emotions Ball	18131	x		NULL	772
6. The Talking, Feeling, Doing Board Game	19137		x	NULL	211
7. Stop, Notice, Think Board Game	19138		x	NULL	180

22. Take Home Reading Bag Popular Series GR K	BK70505001	x		NULL	2

Final Result:

- Two Columns:
 - Family Engagement
 - 53 distinct counts (ProductH2) out of 160 distinct sku ~ 33%
 - look into the [SSMw_GBDB].[dbo].[FE_and_BH] distinct count
 - select count(distinct sku)
 - from [SSMw_GBDB].[dbo].[FE_and_BH]
 - where [Family Engagement]='X'
 - 160 SKUs were family engagement
 - select count (distinct ProductH2)
 - from [SSMw_GBDB].[dbo].[FE_and_BH]
 - where [Family Engagement] = 'X'
 - 53 DISTINCT COUNTS AFFECTED!!
 - Behavior Health
 - 52 distinct counts out of the 68 distinct sku count ~ 76%
 - select count(distinct sku)
 - from [SSMw_GBDB].[dbo].[FE_and_BH]
 - where [Behavior Health]='X'
 - 68 SKUS BH
 - select count(distinct ProductH2)
 - from [SSMw_GBDB].[dbo].[FE_and_BH]
 - where [Behavior Health]='X'
 - 52 affected
- Copy of GBDB Location: S:\SSMw_GBDB\SSMw_GBDB_Gr
 - Side note: Sku from [SSMw_GBDB].[dbo].[FE_and_BH] was matched with ProductH2 in [SSMw_GBDB].[dbo].[GBDB_GR]
 - Sku number (GBDB_GR) was not completely found when using it to match with the sku code [SSMw_GBDB].[dbo].[FE_and_BH]
- Excel File View Name: S:\SSMw_GBDB\SSMw_GBDB_Gr
 - Location: S:\SSMw_GBDB\SSMw_GBDB_Gr

CAMPAIGN SERVICES

SQUEAKERS

Task :

- Data Entry through **DAPP** to record into the CDP (**Customer Data Platform**) and customers won't be mailed anymore
 - **Excel File**
 - **via Email**

Insight :

- Working with multiple input data source
- Managing customer preferences

Impact:

- The customers get their needs met
- Our clients can filter out the customers that don't want to be mailed and make **more effective campaigns**

ONE LINER FOR MY INTERNSHIP EXPERIENCE

Lessons & Growth:

- Gained confidence in how to present myself and communicate in a professional environment
- Learned how to manage tasks, data, and time in a real-world setting
- Know what kind of company I want to work in and value

We are eternally
grateful
